Flexible water pipe

Flexible solution made of stainless steel to convey any media in the field of heating, drinking water and solar applications. Hygienically harmless and oxygen diffusion tight. Easy, quick and cost-effective connection.

Flexible water pipe

Benefits:

- Customized design
- Flexible and flow optimized profile
- Outstanding hygienical safety due to smooth inner surface
- Individual connection possibilities
- Various insulations in different dimensions possible
- Bent to customer specification in adaption to the installation space
- Compensation of tolerances due to flexibility of components
- Reduction of variants by flexible part
- Various approvals for drinking water applications

Technical data:

- Pressure: up to 650 bar
- Temperature: up to 550° C
- Medium: Water, Steam, Glycol
